International Program CORPORATE FINANCE

Professional knowledge in financial management is vital for successfully running any corporation. CMMU's Corporate Finance (CF) program responds to opportunities and challenges of the post-pandemic VUCA world (**V**olatility, **U**ncertainty, **C**omplexity and **A**mbiguity): Corporations who want to survive and persist more than ever need higher levels of profound financial expertise. The financial management of a business is the pre-requisite of all its business activities. The **CF mission** is to provide financial skills that cannot be obtained through self-studying - professional classroom interaction is CMMU's key.

WHO SHOULD TAKE THIS SPECIALIZATION

- People who want to be prepared for a professional career in financial management and as a financial analyst
- Corporate managers, SME managers and entrepreneurs who need more practical knowledge of financial processes in their firm
- Executives who need to make, implement and monitor financial decisions

Please note that a background in accounting is not required, as CMMU provides basic financial accounting courses and advanced management accounting classes.

Further, quantitative analysis with the use of appropriate software will be part of your CF curriculum. Hence, there is no need for a strong mathematical background to study in the program.

CAREER OPPORTUNITIES

- Financial Manager (current and future)
- SME/Family Business Founder & Successor
- Financial Specialist
- Financial Analyst
- Chief Financial Officer (CFO)
- Senior Corporate Executive
- Credit or Loan Officer
- Bank Manager
- Investor
- Fund Manager

DUAL DEGREE OPTION

CF students have the opportunity to study 3 trimesters at CMMU and 1 year at Macquarie University, Sydney, Australia. They will receive a Master of Management with a specialization in Corporate Finance from CMMU and a Master of Commerce with a specialization in Finance from Macquarie University. A partial scholarship is available from Macquarie University for this program.

Core Course 1	Core Course 4	Core Course 7	Comprehensive Examination	Capstone Project
