## International Program DOUBLE DEGREE INTERNATIONAL MANAGEMENT

This program provides students with an opportunity to immerse in two different cultural environments in Europe and Asia. The double degree enables students to pursue a truly international education in the field of business and gives them a competitive edge, providing more job opportunities and a better career after graduation.

CMMU students complete three terms of their studies in Bangkok and two terms in Toulouse, France. Upon successful completion of their studies in each country, students will graduate with degrees from both institutions, a Masters of Management (CMMU) and a Masters in International Management (Toulouse School of Management, France).

### DOUBLE DEGREE OBJECTIVE

- This dual degree from two leading academic institutions is designed to help students to differentiate themselves in a competitive job market.

### WHY A DOUBLE DEGREE?
